

Connected

ACCOUNTING & ERP SOFTWARE

Connected™ is a **full featured** accounting and business management platform for **small to mid-sized** companies. It is best suited for businesses that need **next level features** not found in entry level QuickBooks™ or Sage™. Connected Accounting and ERP is a great solution for distributors, manufactures, and service-based organizations.

OUTGROWN THE ENTRY LEVEL ACCOUNTING SOLUTION?

Is your business using spreadsheets or costly add-ons to track information, like lot numbers, because your accounting system can't?

Let Connected **unify your information** into a single business management platform.

NEED AN ACCOUNTING AND ERP PLATFORM WITH EITHER DESKTOP OR CLOUD?

Connected on Demand is a **best-in-class** cloud solution. Anytime access from any device anywhere.

Connected Enterprise Desktop is a **cross-platform** solution with access for macOS and PC clients on local area networks.

LOOKING FOR A SOLUTION THAT MAKES CENTS?

Stop paying for costly features and being forced into subscriptions. With Connected you get **advanced functionality** and the choice of how to use it. Say goodbye to exorbitant pricing and software bloat — Get Connected today.
