Upper Resistance 1.3710  
Lower Support 1.3640

**RECOMMENDED ACTION**

Convert Target 1.3690 to 1.3710 [← Get notified at this rate](#)  
Stop Order 1.3610

Note: all target rates are based off of [our live charts](#) (adjust for your effective rate)

**OUR MARKET ANALYSIS**

The FOMC raised rates 75bps and fully committed to focus on nothing else then tackling inflation at any cost. This will keep supporting the USD from any significant pullbacks and keep it on a track upwards. Look for the USDCAD to test its 1.37 level a number of times before backing down. For today, look for it to hold below 1.3700, wait for a better rate.
