

DO YOU SPEND TOO MUCH TIME

DOING YOUR WORK, MANAGING YOUR PRACTICE AND KEEPING TRACK OF YOUR TIME?

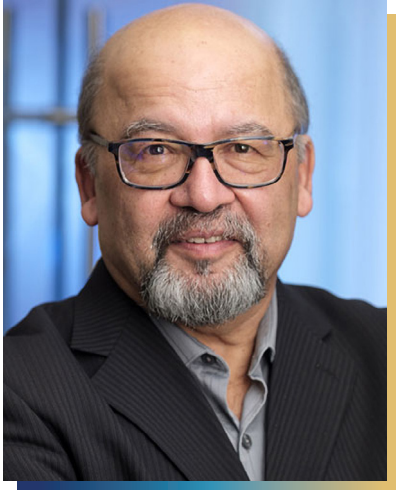

**VOHCOM PAGE LETS YOU DO YOUR WORK FASTER,
MANAGE YOUR PRACTICE MORE EFFICIENTLY AND
RECOVER MORE FOR THE WORK YOU DO.**

“

Our firm gained enormous efficiencies after installing VohCom Page. It was the final piece of the puzzle for our paperless office and helped increase revenues by 15%.

Gregory Buck, CPA, CA
Key Financial Group

“

Page allowed my firm to become five times larger while freeing up more time for me to spend with my family and friends and on the golf course.

”

We designed VohCom Page as a tool to use internally. Our firm was experiencing growth and with increased staff it became imperative that we control the time and the quality of service that we were providing to our clients. Our success can be attributed to this software as it is designed to alleviate the challenges our firm was experiencing in managing the increasing paper and information load. It has evolved into a complete solution for practice management, client relationship management, document management, workflow and time and billing. The combination of having everything where we need it while time is automatically tracked lets us focus on our work without letting billable time fall through the cracks.

When we designed VohCom Page we expected to create time-savings for my firm by creating a perfect paperless office. What we didn't expect is that Page would not only save us time but allow us to improve service, recover more for the work we were doing and act as a growth engine for our business. Page has helped my firm grow from a 9 person firm in a small town to an 80 person firm with three locations with a head office in Vancouver.

The automated time tracking made us realize that we were underbilling for each member of the firm. Throughout the year we were all doing work without accurately accounting for it in our timesheets and billing opportunities were missed. Now, with Page, underbilling is a thing of the past – time is tracked automatically and accurately and we recover more for the work we do.

The bottom line increases we achieved with Page are mirrored now in firms across Canada. Our users have uniformly realized revenue increases – in some cases of over 20%!

We understand the needs of accounting firms are ever-evolving and continue to develop the software to meet those needs. Since introducing Page we have engaged our clients and leading firms across the country to create a development path to ensure Page remains a flexible platform that stays current and easy to use.

As an accountant with an interest in software I understand the meaning of excellent training, support and customer service and I can assure you ours is the best. Whether you're in the thick of tax season or need a refresher in the fall our team are ready to assist with an unmatched level of understanding and care. Our training will assist you in following the best practices of successful practitioners.

The best way to see how Page will help you provide timely service, be in control and increase profitability is by a live demonstration. I encourage you to contact my team by calling **1-888-857-3864** or emailing **info@vohcom.com**.

Yours Truly,

Praveen Vohora CPA, CA

VOHCOM PAGE LETS YOU DO YOUR WORK FASTER, MANAGE YOUR FIRM BETTER AND RECOVER MORE BILLABLE TIME.

GET YOUR WORK DONE FASTER

VohCom Page organizes everything you need in one place and lets you focus your time on your work and clients. Whether emailing a client, sending work to staff or reviewing a file, Page streamlines the process and makes you faster. Information, documents and links are where you need them, and the time you spend working is automatically tracked.

You'll save time doing your work while tracking billable dollars automatically.

RECOVER MORE BILLABLE TIME

Your time is valuable and you should be paid for the work you do! The automated time tracking in Page makes underbilling a thing of the past.

You'll be surprised to see how much more chargeable time you are recording. Recovery opportunities that were previously slipping through the cracks, can now be realized.

MANAGE YOUR PRACTICE BETTER

Page provides you an at a glance understanding of your engagements, clients and deadlines with real-time accuracy and accountability. Managing your own workload becomes as intuitive as managing an Outlook inbox.

With deadlines, budget and WIP information connected in one place, work flows smoothly through the office and deadlines are met. With over 80 reports for period end, sales and clients you'll have every detail you need to plan for and improve your practice.

A SOFTWARE THAT WORKS WITH THE SOFTWARE YOU USE

Whether you're using TaxPrep or TaxCycle, Quickbooks or Sage you'll be able to launch your files from the Engagement Window and get to work right away.

Page includes key integrations with Microsoft Office streamlining the creation and saving of emails, Word and Excel files. We are excited to announce integrations with Quickbooks, Sage, TaxCycle and Microsoft Calendar in 2020!

THE BEST CUSTOMER SUPPORT

When you have a question or need a refresher we will be there to assist you! When you call or email us you'll have a prompt response from a member of our team in Vancouver who is committed to providing you a path to success.

RESPONSIVE PRODUCT DEVELOPMENT

As our industry evolves Page evolves as well. We actively engage our current clients for feedback and suggestions on how to develop the software to make it better for you in the future.

HEAR WHAT OUR CLIENTS HAVE TO SAY

VohCom Page has helped me grow my billings while adding an increased sense of control and peace of mind to our business. By allowing us to capture all of our client engagements, the critical dates associated with each and automatically tracking the time each member of our staff spends on these engagements, we not only ensure we get projects completed on time, but that we get paid for the work we do.

Page has not only helped me consistently grow my business by more than 15% per year, but it has helped me sleep at nights knowing that our client's deadlines are being met.

Scott Furlonger, CPA, CA
Furlonger Associates Professional Corporation

VohCom Page has made our office more efficient allowing us to recover more of our billable time. The improvement was immediate, significant and noticeable.

One of the most positive effects of using this system was not forgetting work. On occasion work would be put on the shelf to be picked up and would be forgotten while staff are working on work already on their desk or clients would bring work to be done in very close to the deadline. Now we know when work has or has not arrived in the office and can schedule and follow up more appropriately. The Page system does this effectively and efficiently. Our legacy systems only allowed us to record work in the system, there was no ability to schedule things. Previously we would have regular team meetings to determine what deadlines were coming up and how the work was coming along. It was very manual and prone to errors. We no longer need these meetings and now we spend more time doing the work than checking to make sure it is being done.

Candace Nancke, FCGA, FCPA Managing Partner
Loren Nancke

VohCom Page is allowing us to achieve our goals of becoming a paperless office. Page allows us to effectively organize our files into specific, yet straightforward folders that allow anyone accessing the engagement to locate information quickly and efficiently.

With Page, we can seamlessly transfer and share files and engagements over two office locations and to accurately track each stage of every open engagement. It allows us to effectively schedule and plan each client's engagements and helps us ensure that we meet all our deadlines.

We can view engagements in real time from any user workstation and with the use of the engagement progress bar, we know exactly what stage an engagement is at. It also allows us to review our WIP and receivables in real time and our invoices and statements can be distributed quickly and efficiently to clients.

KEY FEATURES IN PAGE

The Engagement Window: Workflow, Document Management, Communication, Time-Tracking and more!

The Engagement Window in Page is the best workspace for accounting firms today with everything you need just a few clicks away. You can open files, send work, look up client information – and much more with just a few clicks.

The Engagement Window also act as a launching pad for your favorite programs and websites.

The Action List: Manage your projects Faster and Easier.

Page makes managing engagements faster and easier. Whether managing your own workload or that of your staff members you'll know the status and deadline of every job at a glance.

Automatic Time Tracking: Save Time Tracking Time and Recover More Billable Dollars.

Whether you're doing billable or non-billable work, Page keeps track of the time you spend. At the end of the day you'll have an accurate, automatic timesheet ready for your review.

Client Information and Dashboard

EVERYTHING you need to know about the work you're doing for a client or the work you've done in the past is readily available. Invoices, statements, collection tracking access to CRM and more.

vShare – Securely Send and Receive Files

Clients and regulators expect a higher level of security for transferring information that includes financial information, contact details and social insurance numbers. vShare is integrated directly into Page so you save time securely sending and receiving files.
